

## Used Oil Certification

Advanced Resource Recovery, L.L.C. is required under Federal Law 40CFR 279.53 to keep on file the following information pertaining to used oil waste streams.

Generator Name: \_\_\_\_\_

EPA ID#: \_\_\_\_\_

Contact Person: \_\_\_\_\_

Please mark with an "X" in the appropriate box below, the statement best describing your used oil waste stream:

The oil in our waste stream is below 1,000 ppm total halogens and therefore is not regulated. This oil also does not exceed regulated levels of individual halogenated constituents including PCB's. *(If this box is marked, please attach the PCB analysis for this waste stream.)*

The oil in our waste stream exceeds 1,000 ppm halogens and is exempt from hazardous presumption because the process uses petroleum products containing non-hazardous chlorinated substances. *(If this box is marked, please attach either the Material Safety Data Sheet (MSDS) demonstrating chlorinated paraffin content or a F-Series Solvent-Scan demonstrating the oil has not been mixed with chlorinated solvents.)*

The undersigned hereby certifies the marked paragraph above and any attached information is true and accurate, that the used oil stream has not been mixed with PCB's and PCB's do not exist at the generator's facility. The undersigned has executed this Certification with full and complete power and authority to do so, as of the day and year written below.
